

## Repainting of Elevated Water Storage Tanks City of Emory, Texas

The In-Town elevated water storage tank for the City of Emory was constructed in 1996 and was in need of interior and exterior repainting. Photos above from left to right show the original construction, in progress, and completed repainting of the elevated tank.

The FM 151 elevated water storage tank was also repainted after it had been raised and rehabilitated, and is shown in the photo at left.

Services provided by Hayter Engineering are listed at right.

This project was completed in 2014.
