

**Texas Parks & Wildlife Department
Rail Trail Extension, City of Blossom, Texas
Project ID: RT1204**

This extension of the NE Texas Trail connects to the Prairiland Trail (Reno to Blossom) from CR 13200 on the west side, through downtown Blossom to the east side of South Bois D 'Arc Street, a distance of approximately 1.5 miles. The Trail uses the abandoned Northeast Texas railroad corridor which is adjacent to US 82 in Lamar County, Texas.

The Blossom Trail is part of a Trail Master Plan that extends west to the Trail de Paris in Paris, Texas, and will extend to the future Trail to Farmersville, Texas which is approximately 75 miles from the City of Paris. The future NE Texas Trail east of Blossom will extend to New Boston, Texas.

Improvements included 10,514 SY of 1 3/4 inch asphalt wearing surface, Type D, 12 feet wide with prime coat; 82 SY of 4 inch asphalt driveway wearing surface, Type D; 12,358 SY of cement stabilized subbase, 6 inches deep; 193 ton of cement material 6 inches deep; 7,934 LF of centerline striping; 102 LF of 2 feet wide crosswalk striping; 29 SY of 8 inch concrete drive crossing; and 36 LF of 10 inch CGMP culverts (2 each at 18 LF).

The project was completed in 2016.
