

**Texas Water Development Board
Drinking Water State Revolving Fund
Coating / Repair of Ground & Elevated Storage
Water Tanks along Silo Road
City of Bonham, Texas
Project ID: 61022**

This project and the GIS mapping project used funds remaining from the \$7,355,000.00 Texas Water Development Board Drinking Water State Revolving Fund project. Other projects included a new elevated storage tank, a new high service booster pump station, distribution main, coating and repair of various water storage tanks, and new water meters.

The 100,000 gallon Silo Road ground storage tank with exterior painting and repairs was completed.

The Silo Road elevated storage tank is a 250,000 gallon all welded steel tank. Repairs and painting were done on the interior and exterior of the tank, SCADA modifications and a Video Surveillance system was installed, and an interior ladder was added by change order.

Services provided by Hayter Engineering are listed at right.

This project was completed in 2012.
