

**Texas Department of Agriculture
Elevated & Ground Storage Tank Rehabilitation
City of Point, Texas
Project ID: 713379**

This project was undertaken to address TCEQ deficiencies with the City of Point's water storage facilities. Painting and rehabilitation of three ground storage tanks and one elevated storage tank was performed with the following improvements:

- **150,000 gallon elevated storage tank:** Interior and exterior surface preparation and painting; new riser hatch & sign gauge cable; repaired the interior float; installed new safety climb cable system, interior safety climb cable system, and interior ladder rungs; repaired ladder support brackets; installed a 16" mesh insect screen on the tank roof vent; sealed anode covers; replaced FAA aviation light on the top of the tank; added logo.
- **In-Town 42,000 gallon ground storage tank:** Interior and exterior surface preparation and painting; removed inop level control wires; installed new interior roof support beams, replaced outlet connection on tank wall; removed 2" tank drain and installed a 4" flanged spool; installed exterior ladder with new safety climb cable system, 6" gate valve in tank outlet line; repaired small holes in the roof of the tank; installed 6" outlet gate valve; and insulated inlet and outlet piping.
- **Oak Grove bolted steel 127,000 gallon ground storage tank:** exterior surface preparation and painting, installed exterior ladder with safety climb cable system, and removed 2" tank drain with a 4" flanged spool.
- **Oak Grove welded steel 32,000 gallon ground storage tank:** installed an exterior ladder with safety climb cable system.
