

# Capital Improvements Plan - Water & Sanitary Sewer Line Replacements City of Paris, TX

In 2013 the City of Paris sold bonds in the amount of 45 million dollars Capital Improvements Plan (CIP), which is being used primarily for water and sewer projects. Hayter Engineering has teamed with AECOM, an international engineering firm whose main office is in California, for water and sanitary sewer line replacements.

This project consists of approximately 40 miles of water and sewer pipe. Hayter Engineering provided the surveying for all of these lines. Additionally, Hayter Engineering is designed 64,200 LF (36%) of water and sewer main replacement, and is designing the SE Lift Station replacement (\$2.5 million).

There were five contracts, A – E, all designs were finished on schedule in 2014.
