

**Texas Water Development Board  
Drinking Water State Revolving Fund  
Red River County WSC - Madras Elevated Tank  
Project ID: 61515**

Red River County WSC needed to upgrade their water system to provide for population growth and to meet state capacity regulations. Hayter Engineering assisted the Corporation to obtain financing from the Texas Water Development Board.

The Madras Elevated Tank is a 100,000 gallon all welded steel tank with a 4-legged design and 36" riser pipe. This tank also included foundation/site grading, tank painting, and yard piping.

Services provided by Hayter Engineering are listed at right.

This project was completed in 2015.

The project also included the new Deep Well - FM 911 South. Water pumping and storage improvements are in progress for the new well. New 2-inch to 8-inch diameter transmission and distribution lines will also be built.
