

## Water Tower Painting City of Van Alstyne, Texas

This project included the sandblasting and painting of the interior of the City's existing 250,000 gallon pedestal elevated tank.

Improvements included: interior sandblasting and painting; disinfection of the bowl complete with bacteria testing; repair of the vent around the riser tube; testing and disposal of blast media; and the replacement of the safety climb rail in the bowl.

Services provided by Hayter Engineering are listed at right.

This project was completed in 2010.
